Online tutoring makes volunteering easy!

Vello is an online tutoring program for guided reading that connects professionals with kids in their community. This system provides simple screen sharing and audio for a 1 on 1 experience.

Spokane County United Way offers Vello technology as part of their overall strategy to improve educational opportunities for local students and increase volunteer opportunities for working professionals.

Local volunteers tutored students in Riverside School District using Vello last year. Between August and December 2018, 27 elementary students at Riverside increased their average reading by 2.1 levels! They read and listened to nearly 12,000 books! Congratulations Riverside students!

Call Drew Curry to sponsor Vello for your employees!
